KYON

A Movora Brand

Advance your THR skills with confidence.

Be prepared for complications or revision cases—and equipped to handle them.

Register **TODAY** to gain hands-on experience with managing complications and performing revision techniques using the **KYON THR System**. Over two days, you'll learn from expert instructors through lectures and labs covering stem and cup replacement, plating, cerclage wiring, and more—so you're ready for even the most complex cases. Claim your spot today!
