A Movora Brand

Take the next step in your Total Hip Replacement Education Journey!

If you've taken the KYON Total Hip Replacement Workshop, the next step on your pathway is to complete the KYON Wet Lab Case Evaluation.

Join us in June for the unique opportunity to practice further wet lab cases and have the chance to potentially complete the THR Wet Lab Case Evaluation during the five day event!

Register **TODAY** to save yourself the time and effort of organizing your own wet lab cases at your clinic and get one step closer to offering this life-changing procedure to your patients!

Session Objectives

- Take part in a Training Session and receive mentorship support from expert instructors for one case
- Gain more wet lab practice experience while receiving immediate feedback and scores on case submissions
- Enhance your skills and gain confidence in performing the Total Hip Replacement procedure
- Get the opportunity to potentially complete the Wet Lab Case Evaluation and become eligible to purchase THR implants for your first two clinical cases*

* A minimum of 3 wet lab cases must be successfully performed with a score of 15 points to pass. The first training session case does not count towards the assessment. Passing cannot be guaranteed as this is performance dependent and based on the scores of the submitted cases. For more details about the Wet Lab Case Evaluation, THR Pathway, and this opportunity, please scan the QR code.

**Please bring your technician/nurse to help support a smooth procedure.
