

Introduction to Medial Patellar Luxation Workshop

July 26, 2024

Movora Education Center Boston

Workshop AGENDA

Subject to change slightly as the course approaches

8:00-9:00am

Understanding the mechanisms of patellar luxation

9:00-10:00am

Important diagnostic steps for patellar luxation

10:00-10:30am

Treatment options for patellar luxation

10:30-11am

Surgical technique – Trochleoplasty, tibial tuberosity transposition, and soft tissue reconstruction

11:00am-12:30pm

Lab 1 – Trochleoplasty and Tibial Tuberosity Transposition on plastic bone model

12:30-1:00pm

Lunch

1:00-1:30pm

Lab 2 – Demonstration of Surgical Approach to the stifle on cadaver

1:30-3:30pm

Lab 3 – Trochleoplasty, tibial tuberosity transposition, and soft tissue reconstruction on cadaver

3:30-4:15pm

Clinical Experience and postoperative care

4:15-5:00pm

Post operative radiograph review and discussion

INSTRUCTORS

Dr. David Dycus, DVM, MS, CCRP DACVS-SA
