

Principles of Fracture Repair

March 29-30, 2024

Movora Education Center, Boston

Workshop Agenda

**Subject to change*

PRESENTED BY:

Day 1:	Day 2:
<p>8:00 - 8:05am Course objectives</p> <p>8:05 - 8:25am Principles of bone healing</p> <p>8:30 - 9:00am Direct fracture reduction</p> <p>9:00 - 9:45am Indirect fracture reduction</p> <p>9:45 - 10:05am Pins, wires and external fixators</p> <p>10:10 - 10:45am Laboratory 1 Direct reduction tibial shaft fracture - plastic bone, pins and wire</p> <p>10:50 - 11:15am Bone plates and screws</p> <p>11:20a - 12:00pm Radial fractures - distal and diaphyseal</p> <p>12:00 - 12:45pm Lunch</p> <p>12:45 - 1:15pm Laboratory 2 Direct reduction distal radial fracture - plastic bone, plate</p> <p>1:30 - 2:30pm Laboratory 3 Direct reduction distal radial fracture - cadaver, plate</p> <p>2:35 - 3:10pm Tibial shaft fractures</p> <p>3:15 - 4:00pm Laboratory 4 Indirect reduction tibial fracture - plastic bone, plate-rod</p> <p>4:00 - 5:30pm Laboratory 5 Indirect reduction - comminuted tibial fracture Cadaver, plate or plate-rod</p>	<p>8:00-10:00am Radiograph Review and Discussion</p> <p>10:00 - 11:15am Femoral shaft fractures</p> <p>11:15a - 12:30pm Laboratory 6 Indirect reduction femur fracture - plastic bone, plate-rod</p> <p>12:30 - 1:30pm Lunch (1:00hr)</p> <p>1:30 - 3:30pm Laboratory 7 Indirect reduction femur fracture - cadaver, plate-rod</p> <p>3:30 - 4:00pm Wrap up and Discussion</p>
	<p>Instructors</p> <p>Anthony Kahn, DVM DACVS-SA Philippa Pavia, VMD, DACVS-SA</p>
