

Principles of Fracture Repair

December 7-8, 2024

Movora Education Center, Boston

WORKSHOP AGENDA

Subject to change slightly as the course approaches

Day 1	Day 2
<p>8:00 – 8:10 am Introductions and Workshop Outline</p> <p>8:10 – 9:00 am Fracture types and Biology</p> <p>9:00 – 9:45 am Implants and their applications</p> <p>9:45 – 10:15 am Treatment of avulsion fractures</p> <p>10:15 – 10:30 am Break</p> <p>10:30 – 11:15 am Laboratory 1: Pin and cerclage an avulsion fracture - sawbones</p> <p>11:15 – 12:00 pm Treatment of simple diaphyseal fractures</p> <p>12:00 – 12:30 pm Lunch</p> <p>12:30 – 1:30 pm Laboratory 2: Bone plate a distal diaphyseal radius fracture - sawbones</p> <p>1:30 – 2:30 pm Treatment of comminuted diaphyseal fractures</p> <p>2:30 – 3:15 pm Laboratory 3: Plate/rod construct on a femur</p> <p>3:15 – 3:45 pm Treatment of metaphyseal fractures</p> <p>3:45 – 5:30 pm Laboratory 4: Cadaver lab. Apply principles learned to real bones</p>	<p>8:00 – 9:30 am Radiograph technique, evaluation and review</p> <p>9:30 – 10:15 am Tips and tricks</p> <p>10:15 – 10:30 am Break</p> <p>10:30 – 12:15 pm Laboratory 5: Cadaver Lab</p> <p>12:15 – 1:00 pm Lunch</p> <p>1:00 – 3:30 pm Laboratory 6: Cadaver Lab</p> <p>3:30 – 4:00 pm Wrap up and discussion</p> <p>Instructors</p> <p>Dr. Anthony Kahn <i>DVM, DACVS-SA</i></p> <p>Dr. Philippa Pavia <i>VMD, DACVS-SA</i></p>
